Spanish 3

I. Introduction/Overview/Philosophy

This course has been designed to reflect the philosophy and goals found in both the national standards, *Standards for Foreign Language Learning in the 21st Century* and the *New Jersey Student Learning Standards for World Languages (2014)*. It is designed to meet the needs of students grades 9-12 who are interested in continuing their study of the Spanish language and culture. The students will continue their study of Spanish from the introduction of new material, exercises and activities, all of which span the four language learning skills: reading, writing, speaking, and listening. In addition, to providing students with the skills they need to create language for communication the main focus of Spanish 3 is to apply that knowledge and skills to realistic situations. Culture is also emphasized throughout the course. Students will be expected to complete independent reading and writing assignments on cultural topics through the use of literature and current events.

III. Proficiency Levels

The American Council on the Teaching of Foreign Languages (ACTFL) has developed the following generic guidelines for language proficiency in speaking, listening, reading and writing. The descriptions are intended to be representative of the ranges of ability, not exhaustive and all encompassing, and to apply to stages of proficiency, rather than to achievement within a specific curriculum.

Speaking

1. Novice

The Novice level is characterized by an ability to communicate minimally with learned material.

2. Novice-Low

Oral production consists of isolated words and perhaps a few high-frequency phrases. Essentially no functional communicative ability.

3. Novice-Mid

Oral production continues to consist of isolated words and learned phrases within very predictable areas of need, although quantity is increased. Vocabulary is sufficient only for handling simple, elementary needs and expressing basic courtesies. Utterances rarely consist of more than two or three words and show frequent

Spanish 3

long pauses and repetition of interlocutor's words. Speaker may have some difficulty producing even the simplest utterances. Some Novice-Mid speakers will be understood only with great difficulty.

4. Novice-High

Able to satisfy partially the requirements of basic communicative exchanges by relying heavily on learned utterances but occasionally expanding these through simple re-combinations of their elements. Can ask questions or make statements involving learned material. Shows signs of spontaneity, although this falls short of real autonomy of expression. Speech continues to consist of learned utterances rather than of personalized, situationally adapted ones. Vocabulary centers on areas such as basic objects, places, and most common kinship terms. Pronunciation may still be strongly influenced by first language. Errors are frequent and, in spite of repetition, some Novice-High speakers will have difficulty being understood even by sympathetic interlocutors.

5. Intermediate

The Intermediate level is characterized by an ability to create with the language by combining and recombining learned elements, though primarily a reactive mode; initiate, minimally sustain, and close in a simple way basic communicative tasks; and ask and answer questions.

6. Intermediate-Low

Able to handle successfully a limited number of interactive, task-oriented and social situations. Can ask and answer questions, initiate and respond to simple statements, and maintain face-to-face conversation, although in a highly restricted manner and with much linguistic inaccuracy. Within these limitations can perform such tasks as introducing self, ordering a meal, asking directions, and making purchases. Vocabulary is adequate to express only the most elementary needs. Strong interference from native language may occur. Misunderstandings frequently arise, but with repetition, the Intermediate-Low speaker can generally be understood by sympathetic interlocutors.

7. Intermediate-Mid

Able to handle successfully a variety of uncomplicated, basic and communicative task and social situations. Can talk simply about self and family members. Can ask and answer questions and participate in simple conversations on topics beyond the most immediate needs: e.g., personal history and leisure-time activities. Utterance length increases slightly, but speech may continue to be characterized by frequent long pauses, since the smooth incorporation of even basic conversational strategies is often hindered as the speaker struggles to create appropriate language forms. Pronunciation may continue to be strongly influenced by first language and fluency may still be strained. Although misunderstandings still arise, the Intermediate-Mid speaker can generally be understood by sympathetic interlocutors.

8. Intermediate-High

Able to handle successfully most uncomplicated communicative tasks and social situations. Can initiate, sustain, and close a general conversation with a number of strategies appropriate to a range of circumstances and topics, but errors are evident. Limited vocabulary still necessitates hesitation and may bring about slightly unexpected circumlocution. There is emerging evidence of connected discourse, particularly for simple narrative and/or description. The Intermediate-High speaker can generally be understood even by interlocutors not accustomed to dealing with speaking at this level, but repetition may still be required.

Listening

These guidelines assume that all listening tasks take place in an authentic environment at a normal rate of speech using standard or near-standard norms.

1. Novice-Low

Understanding is limited to occasional isolated words, such as cognates, borrowed words, and high-frequency social conventions. Essentially no ability to comprehend even short utterances.

2. Novice-Mid

Spanish 3

Able to understand some short, learned utterances, particularly where context strongly supports understanding and speech is clearly audible. Comprehends some words and phrases from simple questions, statements, high-frequency commands, and courtesy formulae about topics that refer to basic personal information or the immediate physical setting. The listener requires long pauses for assimilation and periodically requests repetition and/or a slower rate of speech.

3. Novice-High

Able to understand short, learned utterances and some sentence-length utterances, particularly where context strongly supports understanding and speech is clearly audible. Comprehends words and phrases from simple questions, statements, high-frequency commands, and courtesy formulae. May require repetition, rephrasing, and/or a slowed rate of speech for comprehension.

4. Intermediate-Low

Able to understand sentence-length utterances which consist of re-combinations of learned elements in a limited number of content areas, particularly if strongly supported by the situational context. Content refers to basic personal background and needs, social conventions, and routine tasks, such as getting meals and receiving simple instructions and directions. Listening tasks pertain primarily to spontaneous face-to-face conversations. Understanding is often uneven; repetition and rewording may be necessary.

Misunderstandings in both main ideas and details arise frequently.

5. Intermediate-Mid

Able to understand sentence-length utterances which consist of re-combinations of learned utterances on a variety of topics. Content continues to refer primarily to basic personal background and needs, social conventions, and somewhat more complex tasks, such as lodging, transportation, and shopping. Additional content areas include some personal interests and activities, and a greater diversity of instructions and directions. Listening tasks not only pertain to spontaneous face-to-face conversations but also to short routine telephone conversations and some deliberate speech, such as simple announcements and reports over the media. Understanding continues to be uneven.

6. Intermediate-High

Able to sustain understanding over longer stretches of connected discourse on a number of topics pertaining to different times and places; however, understanding is inconsistent due to failure to grasp main ideas and/or details. Thus, while topics do not differ significantly from those of an Advanced-level listener, comprehension is less in quantity and poorer in quality.

Reading

These guidelines assume all reading texts to be authentic and legible.

1. Novice-Low

Able occasionally to identify isolated words and/or major phrases when strongly supported by context.

2. Novice-Mid

Able to recognize the symbols of an alphabetic and/or syllabic writing system and/or a limited number of characters in a system that uses characters. The reader can identify an increasing number of highly contextualized words and/or phrases including cognates and borrowed words, where appropriate. Material understood rarely exceeds a single phrase at a time, and rereading may be required.

3. Novice-High

Has sufficient control of the writing system to interpret written language in areas of practical need. Where vocabulary has been learned, can read for instructional and directional purposes standardized messages, phrases, or expressions, such as some items on menus, schedules, timetables, maps, and signs. At times, but not on a consistent basis, the Novice-High-level reader may be able to derive meaning from material at a slightly higher level where context and/or extra-linguistic background knowledge are supportive.

4. Intermediate -Low

Spanish 3

Able to understand main ideas and/or some facts from the simplest connected texts dealing with basic personal and social needs. Such texts are linguistically noncomplex and have a clear underlying internal structure, for example, chronological sequencing. They impart basic information about which the reader has to make only minimal suppositions or to which the reader brings personal interest and/or knowledge. Examples include messages with social purposes or information for the widest possible audience, such as public announcements and short, straightforward instructions dealing with public life. Some misunderstandings will occur.

5. Intermediate-Mid

Able to read consistently with increased understanding simple connected texts dealing with a variety of basic and social needs. Such texts are still linguistically noncomplex and have a clear underlying internal structure. They impart basic information about which the reader has to make minimal suppositions and to which the reader brings personal interest and/or knowledge. Examples may include short, straightforward descriptions of persons, places, and things written for a wide audience.

6. Intermediate-High

Able to read consistently with full understanding simple connected texts dealing with basic personal and social needs about which the reader has personal interest and/or knowledge. Can get some main ideas and information from texts at the next higher level featuring description and narration. Structural complexity may interfere with comprehension; for example, basic grammatical relations may be misinterpreted and temporal references may rely primarily on lexical items. Has some difficulty with the cohesive factors in discourse, such as matching pronouns with referents. While texts do not differ significantly from those at the Advanced level, comprehension is less consistent. May have to read material several times for understanding.

Writing

1. Novice-Low

Able to form some letters in an alphabetic system. In languages whose writing systems use syllabaries or characters, writer is able to copy and produce the basic strokes. Can produce romanization of isolated characters, where applicable.

2. Novice-Mid

Able to copy or transcribe familiar words or phrases and reproduce some from memory. No practical communicative writing skills.

3. Novice-High

Able to write simple fixed expressions and limited memorized material and some re-combinations thereof. Can supply information on simple forms and documents. Can write names, numbers, dates, own nationality, and other simple autobiographical information, as well as some short phrases and simple lists. Can write all the symbols in an alphabetic or syllabic system or 50-100 characters or compounds in a character writing system. Spelling and representation of symbols (letters, syllables, characters) may be partially correct.

4. Intermediate-Low

Able to meet limited practical writing needs. Can write short messages, postcards, and take down simple notes, such as telephone messages. Can create statements or questions within the scope of limited language experience. Material produced consists of re-combinations of learned vocabulary and structures into simple sentences on very familiar topics. Language is inadequate to express in writing anything but elementary needs. Frequent errors in grammar, vocabulary, punctuation, spelling, and in formation of non-alphabetic symbols, but writing can be understood by natives used to the writing of non-natives.

5. Intermediate-Mid

Able to meet a number of practical writing needs. Can write short, simple letters. Content involves personal preferences, daily routine, everyday events, and other topics grounded in personal experience. Can express present time or at least one other time frame or aspect consistently, e.g., non-past, habitual, imperfective.

Spanish 3

Evidence of control of the syntax of noncomplex sentences and basic inflectional morphology, such as declensions and conjugation. Writing tends to be a loose collection of sentences or sentence fragments on a given topic and provides little evidence of conscious organization. Can be understood by natives used to the writing of non-natives.

6. Intermediate-High

Able to meet most practical writing needs and limited social demands. Can take notes in some detail on familiar topics and respond in writing to personal questions. Can write simple letters, brief synopses and paraphrases, summaries of biographical data, work and school experience. In those languages relying primarily on content words and time expressions to express time, tense, or aspect, some precision is displayed; where tense and/or aspect is expressed through verbal inflection, forms are produced rather consistently, but not always accurately. An ability to describe and narrate in paragraphs is emerging. Rarely uses basic cohesive elements, such as pronominal substitutions or synonyms in written discourse. Writing, though faulty, is generally comprehensible to natives used to the writing of non-natives.

IV. Methods of Assessment

Student Assessment

Assessment in second-language learning needs to operate at a number of different levels because of the many layers of skills and proficiencies that are being acquired, and that thus need to be assessed and evaluated.

The types of assessment fall into three major categories:

- Proficiency Assessment- The emphasis is on performances, what students can do with the language and to what extent they can transfer the language into real-life settings.
- Achievement Assessment- It requires students to demonstrate retention of previously learned content material, vocabulary and structure, for example.
- Pro-achievement Assessment- It is a combination of both proficiency and achievement testing. It asks students to demonstrate what they know in a meaningful context.
- One-on-one assessment
- Group assessment
- Portfolio assessment
- Peer assessment
- Self-assessment
- Project-Based Assessments
- Benchmark Assessments
- Listening Comprehension
- Test and Quizzes
- Oral presentations
- Research projects

Curriculum/Teacher Assessment

Since curriculum development is an on-going process, the teachers will provide the World Language Department supervisor with suggestions for changes and updates as this course requires.

V. Grouping

The students in this course are heterogeneously grouped according to grade level.

VI. Articulation/Scope & Sequence/Time Frame

This is a third level of Spanish at the high school. It is a full-year course.

IX. Methodologies

Realizing that each student has a unique way of learning, it is important to vary teaching methods. Listed below are several different methods, which may be used in combination.

- Inductive Approach- A strategy that enables classroom instruction to be conducted in the target language, an inductive approach to grammar teaches concrete vocabulary through pictures and objects, while abstract vocabulary is taught by association of ideas.

Spanish 3

- Natural Approach- A strategy that promotes communicative proficiency by providing real-world, authentic experiences and language experiences within meaningful contexts.
- Password/Language Ladders- A strategy in which students learn to speak sentences or phrases (“passwords”) that are associated with desired activities.
- Gouin Series- A strategy in which students learn to use short sentences or phrases to describe a logical sequence of actions that take place in a specific context that is familiar to the student.
- Dialogue Journals- A strategy in which students use journals as a way to hold private conversations in the target language with the teacher. Dialogue journals are vehicles for sharing ideas and receiving feedback in the target language. The dialogue can be conducted by e-mail where it is available.
- Total Physical Response (TPR)- A strategy in which students respond with physical activity to an increasingly complex set of commands. The students’ response of physical activity signals their comprehension of the command. This is ideally suited for beginning foreign language students, but can be adopted and made more complex for higher-level students.
- TPR Story Telling- Based on the Natural approach, TPR Storytelling combines the effectiveness of TPR with the power of story-telling. TPR Storytelling teaches students to use the vocabulary they have learned in the context of entertaining, content-rich stories. Language production goes beyond the imperative into the narrative and descriptive modes.
- Interviews- A strategy for gathering information and reporting.
- Cloze- Open-ended strategy in which a selected word or phrase is eliminated from a written or oral sentence or paragraph.
- Continuums- A strategy used to indicate the relationship among words or phrases.
- Interactive Language Tasks- A strategy in which at least two students work together to accomplish a meaningful target language activity.
- Cultural Presentations- A strategy for creating an exhibit that is focused on aspects of the target culture.
- The Learning Cycle- A sequence of lessons designed to have students engage in exploratory investigations, construct language and compare culture concepts to their own lives.
- Read and Retell- An all-purpose strategy that involves students retelling a passage in the target language as they remember it.
- Literature, History and Storytelling- A strategy in which the culture and history of another country is brought to life through literature, folktales, and folk songs.
- Cooperative Learning- A strategy in which students work together in small groups to achieve a common goal, while communicating in the target language. Cooperative learning involves more than simply putting students into work or study groups. Teachers promote individual responsibility and positive group interdependence by making sure that each group member is responsible for a given task. Cooperative learning can be enhanced when group members have diverse abilities and backgrounds.
- Brainstorming- A strategy for eliciting ideas from a group and communicating them in the target language in oral or written form.
- Problem Solving- A learning strategy in which students apply knowledge to solve problems.
- Reflective Thinking- A strategy in which students reflect on what was learned after a lesson is finished, either orally or in written form.
- Field Experience- A planned learning experience for students to observe, study, and participate in expressions of the target culture (s) in a setting off the school grounds, using the community as a laboratory.
- Free Writing- A strategy for encouraging students to express ideas by writing in the target language.
- Free Reading- A strategy for encouraging students to read in the target language.
